I am writing in support of the RFD
Channel that we watch on DISH.

We watch the music on Fri, Sat & Sun.
nights. Larrys Country Music on Thursday
also Postcards from Nebraska, Small Town
Big Deal plus I enjoy the Pastors on Sun.
morning when the weather is cool as I'm
ill. Plus we watch other programs as
there always something interesting to watch.
We like RFD, History, Fox News & weather
channels. Outside of our local stations
that is what we watch most of the time.

We are retired and home watching
TV most of the time. I am thankful
for RFD TV and happy to be able to
have it offered on our DISH programming.

I am glad the FCC is getting
involved to look out for rural
America. We have lots of channels
now we would never watch

Thank you RFD-TV for all you do
to bring clean, entertaining programs for us
to watch.

Thank you,

Dear FCC:

I am a 64 year old women and you can see from my letterhead what I do for a living.

I grew up on a dairy and beef farm and RFD-TV keeps me current on what farmers are doing, from when I was a young girl.

RFD-TV is most important to me for the horse programming, since I have two horses. Riding is an outlet for me, because I had polio and they become the strong body I do not have. Watching the horse trainers makes for a better horse.

Ag PHD taught me how to remove Asian beetles from my house and barn and what weeds respond to which weed killer. I wish those two boys were my sons.

The young city people need to watch RFD-TV to learn about FFA (Future Farmers of America) and the jobs available in the agriculture area, the largest employer in America!

Watch RFD-TV.....you will know the value in a few hours. No one is cussing, nude or telling you how to think.....how refreshing.

If we had more young people working on farms, ranches and gardens, we would have less people on drugs.

Respectfully yours,

Patricia F. Bringardner-Lang CEAP, SAP

Reason: RED-TV

Dear FCC:

I am a 60 year old man, who is also a Weights and Measure Official for the Muskingum County Auditor in Muskingum County: Zanesville, Ohio. I am a loyal and long-time viewer of RFD-TV on DISH.

The Wts. And Measures is a department of the State/National Agriculture Department and this dovetails with the programming of RFD-TV.

It is important to have this programming for the people who do not have the background of agriculture....the largest employer of America. Young people need to know the avenues for their futures and the seniors love to see where they came from.

It is paramount we do not lose this connection. Watch RFD-TV.....it will show you what a million letters cannot.....you will learn, you will laugh and you will go down memory lane, if you have any kind of agriculture background. You will never see nudity, hear cuss words or be worried about your children or grandchildren asking why someone is near buck-naked or what was that word they just said.

Please look and see what more Americans need to see and what I and many do not want to lose.

Dear Members of the FCC:

This is in reference to proceeding 16-41.
I want to express my support for
RFD TV. My particular interest is in
the music and entertainment shows that
are not available on other networks.

In my opinion, it is essential to
have a network that provides news and
information for farmers and ranchers.

RFD TV provides weather and market
prices; which are important to rural
and agricultural workers.

I live in an urban area, but I find
the city and country are intertwined.
Several of the supermarkets in the area
make a point of expressing how much
they rely on farms in the country that
provide food for their store such as
meat and produce. Thank you for your consideration.

Sincerely

Ted Neuhaus

Dear FCC - 16.41

I watch R.F.D.-TV about 80% of the time and enjoy all their Programs especially music & entertainment and all the information Programs.

I am appalled that Verizon can Drop R.F.D.-TV. for no Real Reason.

We are a farming community and Value all their Programs

R.F.D.-TV tries Hard to bring Rural & Urban lifestyles together.

Verizon is doing just the opposite. all they are interested in is forcing people to watch Violence & murder, because thats about all they offer.

R.F.D.-TV is a Clean Channel with Programs for everyone. A Real Family Channel.

DOCKET FILE COPY ORIGINAL

Maybe if their Food supply was cut off for awhile they would see how important Farmers & Ranchers are.

Please Dont let Verizon get away with this. We get R.F.D.-TV on fiber optic.

P.S. I would Drop Verizon completely if we was on Verizon

Sincerely
